The diagram is a detailed architectural floor plan of a building, likely a school or institutional facility, showing evacuation routes. The plan is oriented with a north arrow pointing towards the top-left. The building's layout includes several rooms, corridors, and stairwells. Key features include:

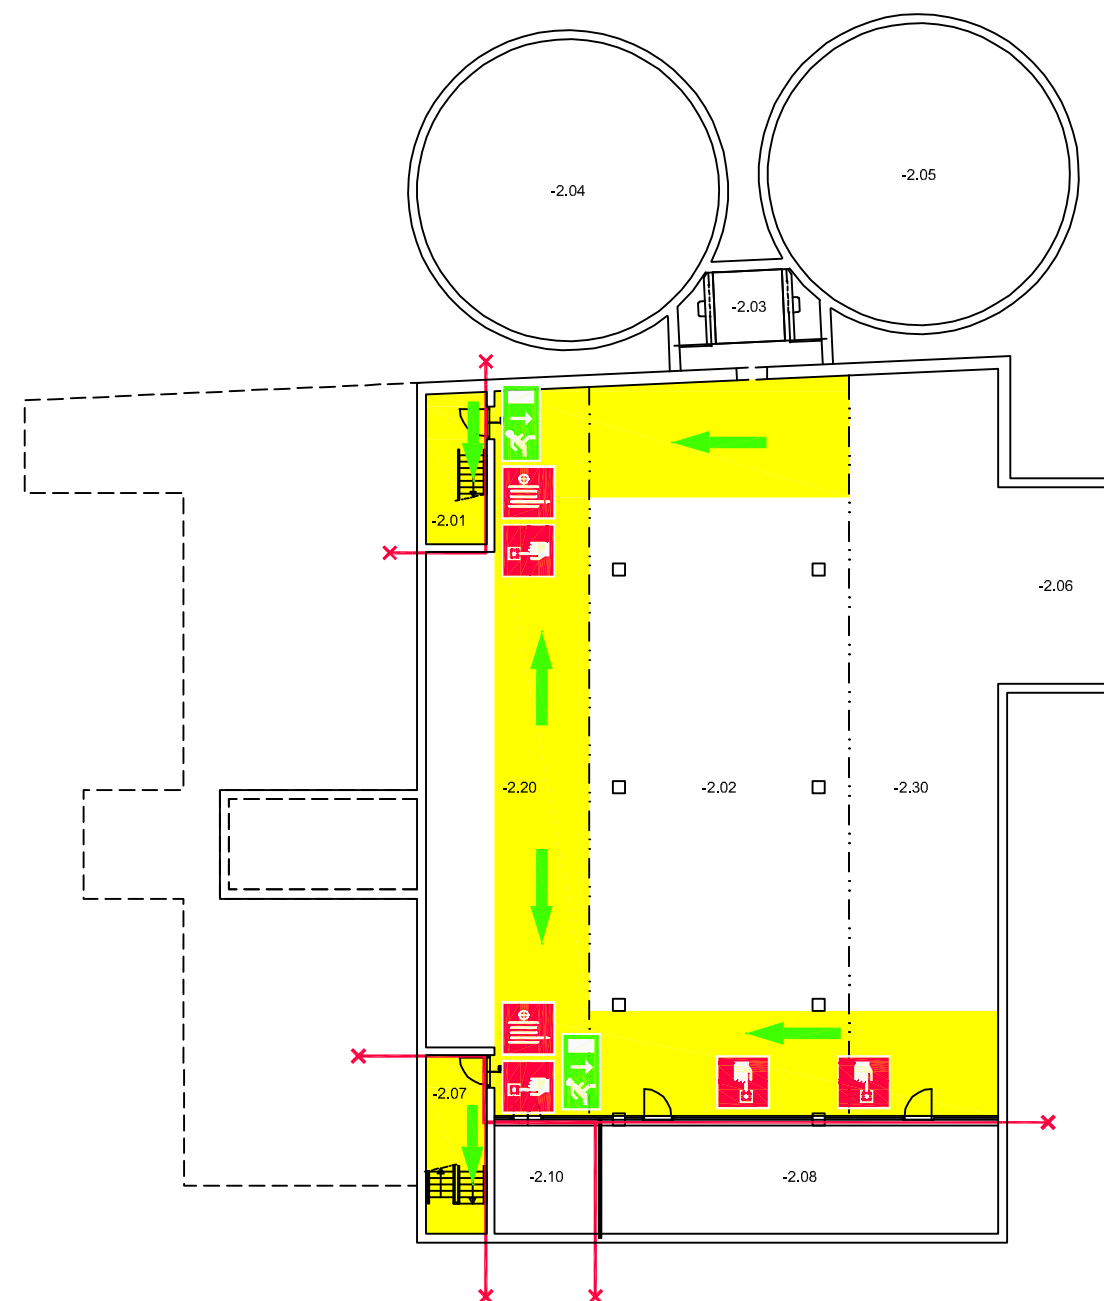

- Yellow Highlighted Areas:** These represent the primary evacuation routes. They include a central corridor, a long horizontal corridor, and several stairwells.
- Green Arrows:** These indicate the direction of movement for evacuation. Arrows point from various rooms towards the central corridor and then outwards towards exits.
- Elevations:** The plan includes several elevation markers: -1.06, -1.05, -1.10, -1.11, -1.12, -1.08, and -1.07.
- Exits and Entrances:** There are several exits marked with red 'X' symbols. Entrances are marked with red 'X' symbols and a blue callout box.
- Callout Box:** A blue callout box with the text "U BEVINDT ZICH HIER / YOU ARE HERE" points to a specific location in the central corridor.
- Other Features:** The plan includes various symbols for doors, windows, and furniture. There are also circular areas on the left side of the plan, possibly representing outdoor spaces or courtyards.

- brandscheiding / fire separation
- handbrandmelder / manually operated call point
- brandslanghaspel / fire hose reel
- vluchtweg / escape route
- vluchtrichting / escape direction
